Jul Hendri

Backend Developer

This is Jul, who is taking the Back End course in Glints Academy Batch 8 and mainly learning about Node.js. I also learning Java with Spring Boot Framework and Maven for building REST API. During spare time, I often enroll new course to learn new things, or took any volunteers activities to improving my skills and to help solving problems with code. I am currently very motivated to explore my capabilities by taking a new opportunity to start my career. I am also a dedicated person, hardworking, can work under pressure, and always want to learn.
